DOUBLE ACTING BALL VALVE Force and Lift Pump, For the States of Tennessee, North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi and Louislana. We have tested the Pump in all its recommended uses for ordinary purpose—in wells, and as fire engines; and healtate not to say that it is superior to any pump new in use. It is simple and plain in its construction; can be taken to picces or put together by an ordinary man, black or white, in half a minute. There is not a screw or bolt about the pump; there is the least imaginable friction-hence its durability. It is almost impossible for it to get out of fix by usage. When used for a well or clatern it can be converted into a Fire Engine in one minute, and by one man water can be thrown over the follest houses in the country. It is invalable as a Fire Engine, and especially in the country or coun-

try towns.

It is equally well adapted to all machinery, Railroad Tanks, &c., and will, when known, superscode all other pumps. It can be used for either hot or call water. The Pumpe are cheap, and therefore within the reach of Address PORTER & BEIEN, Nassynas, Tenn.
